Mahim

Software Engineering Student & AI-Driven Developer

Dhaka, Bangladesh | mahim242-35-705@diu.edu.bd | +880 1960-603846 | github.com/Mahim-Ahmad

SUMMARY

Software Engineering student at Daffodil International University who likes taking a system apart on paper before touching a keyboard — DFDs, use case diagrams, and SRS documents first, code second. Builds software with AI as a development partner, and keeps learning beyond the classroom with 18+ certificates across Python, TensorFlow, NLP, and Generative AI. Currently aiming toward DevOps and deeper AI/ML engineering.

EDUCATION

B.Sc in Software Engineering — Daffodil International University
Section 43J | Ongoing — Summer 2026 | CGPA 3.77–4.00 across completed semesters

HSC — Afajuddin Memorial College
2022 – 2023 | GPA 5.00

SSC — Afajuddin Memorial High School
2020 – 2021 | GPA 5.00

SKILLS

- Programming Languages: C, C++, Java, Python, JavaScript
- Web Development: HTML5, CSS3, Tailwind CSS, React, Node.js, Next.js
- AI / ML: TensorFlow, OpenCV, Scikit-Learn, NLP
- Software Engineering: Data Structures & Algorithms, OOP, Software Architecture, SRS & UML Modeling, Database Systems, Statistics
- Tools & Platforms: SQL, XAMPP, Code::Blocks, PyCharm, VS Code, Git, GitHub, Linux, Ubuntu, VirtualBox, Arduino IDE, Trello
- Creative & Design: Canva, CapCut, Adobe Premiere Pro, Adobe Photoshop
- Productivity Tools: MS Word, MS Excel, MS PowerPoint
- Soft Skills: Teamwork, Communication, Problem Solving

PROJECTS

RecycleHub
- Smart AI-powered resale system — a system-analysis project (DFDs, use case diagrams, SRS) turned working AI prototype.

Book Vibe
- A book-focused web application with a clean browsing experience.

Eventrix
- Event management style web project.

GitHub Issues Tracker
- A tracker app that pulls and displays GitHub issues.

Frontend & Assignment Projects
- Multiple front-end practice assignments (job-listing app, deployed portfolio pieces) — built and deployed as live web apps via Netlify / GitHub Pages.

CERTIFICATIONS (18+)

- Python for Data Analysis — Simplilearn (SkillUp)
- Python for Beginners — Simplilearn (SkillUp)
- OOPs in Java — Simplilearn (SkillUp)
- TensorFlow for Beginners — Simplilearn (SkillUp)

- Introduction to Python OpenCV — Simplilearn (SkillUp)
- Natural Language Processing (NLP) and Text Mining — Simplilearn (SkillUp)
- Master AI for Web App Development — Simplilearn (SkillUp)
- Introduction to Web Development with ChatGPT — Simplilearn (SkillUp)
- Introduction to Generative AI Studio — Google Cloud / Simplilearn (SkillUp)
- Prompt Engineering for ChatGPT — Great Learning
- Pandas — Kaggle
- GitHub Basics — Simplilearn (SkillUp)
- Full-Stack Development 101 — Simplilearn (SkillUp)
- Introduction to MS Excel — Simplilearn (SkillUp)
- Introduction to Critical Infrastructure Protection — OPSWAT Academy
- Leadership Qualities – Boss VS Leader — GoEdu
- Entrepreneurship in Action: Click. Launch. Learn — Passport to Earning Bangladesh (UNICEF / Generation Unlimited)
- DIU Code Trap Programming Contest, Spring 2025 — DIU Software Engineering Club

LANGUAGES

- Bangla — Native
- English — Professional Working Proficiency
